

"Girl Like Me"

Written by Cortney Miller, Kyle Miller and John Hartman 2016

1st verse

I know you wanna make me your baby,
I know you wanna show me off to your
friends.
But I'll tell you now what this is all about,
Before you fall in love and I break your
Heart,
Well we had some fun but this is where it
Ends.

You don't have to call me tomorrow,
I don't have to wake up in your bed.
You don't need to leave me your number,
Yeah, you never need to hear from me again.

Chorus

You don't get to be the only one to be a
Little wild, have a little fun.
There's cash in my pockets, whiskey left to drink.
The kinda girl you'd like me to be, well
She's long gone but I do believe,
You never will forget a girl like me.

2nd verse

You don't have to send me no flowers,
You don't have to call me every day,
Just to tell me how much that you miss me
Because I probably wouldn't be listenin' anyway.

Chorus

You don't get to be the only one to be a
Little wild, have a little fun.
There's cash in my pockets, whiskey left to drink.
The kinda girl you'd like me to be, well
She's long gone but I do believe,
You never will forget a girl like me.

Bridge

Typically, you'd be expectin' me
to be on my knees, beggin 'please.' (Please, please, please)
Oh but don't you know, that when it's time to go,
I'll walk you out the door 'cuz I don't need you anymore.

Chorus

You don't get to be the only one to be a
Little wild, have a little fun.
There's cash in my pockets, whiskey left to drink.
The kinda girl you'd like me to be, well
She's long gone but I do believe,
You never will forget a girl like me.
Yeah, you never will forget a girl like me.
