

"In The Bottle"

Written by Cortney Miller and John Hartman 2016

1st verse

Somethin's been botherin' me all day,
Did I lock the door and put the milk away?
Couldn't quite place my finger on it,
But somethin' wasn't right, I couldn't
Concentrate.

Prechorus

I rounded that corner, saw the neon sign,
Right then I knew what was on my mind.

Chorus

Keep on rollin' til you get to the bottom,
Now there ain't no use in stoppin,
Daddy always said, 'don't leave the job
Half done,'
'Cuz there's still a little left in the bottle.

2nd verse

Walkin' through that door was my first
Mistake,
But sometimes old habits can be hard to
Break.
Sittin across from me face-to-face,
Seein my ex with her was kinda hard to
Take.

Pre chorus

That's when the whiskey started talkin to
Me.
Tried really hard, couldn't let it be.

Chorus

Keep on rollin' til you get to the bottom,
Now there ain't no use in stoppin,
Daddy always said, 'don't leave the job
Half done,'
'Cuz there's still a little left in the bottle.

Bridge

When you feel like quittin' just think about
Why you started, take that bottle down.

Chorus

Keep on rollin' til you get to the bottom,
Now there ain't no use in stoppin,
Daddy always said, 'don't leave the job
Half done,'
'Cuz there's still a little left in the bottle.
In the bottle.
